

2025: A SURPRISING VINTAGE

Olivier Leflaive

WORD OF THE TECHNICAL TEAM

“

The 2025 vintage stands out as a simpler year than 2024, with exemplary grape health, despite a more delicate end to the growing season that required careful attention in the vineyards during July and then a rapid response at harvest time. The campaign was marked by two heatwaves in June and August, and an early start to vegetative growth, leading to an early harvest and a wide diversity of wine profiles.

”

HIGHLIGHTS IN THE VINEYARDS

- Exemplary health status
- A significant amount of millerandage (uneven ripening)
- Two heatwaves in June and August resulted in a fairly significant drop in yield across the entire vineyards

HIGHLIGHTS IN THE CELLAR

- Fermentation proceeded rapidly
- Malolactic fermentation was very early
- The wines have a beautiful aromatic expression
- A rich and contrasting style marked by a wide diversity of interpretations depending on the harvest dates
