## MEURSAULT LES CLOUS 2019

The word Clous is a closer word to "Clos" (Burgundian variant)

### VINTAGE

The season begins with a mild and dry winter, leading to an early start to the growing cycle. A significant episode of frost occurred on the Chardonnay on April 5 then on the Pinot Noir on April 14, causing a harvest loss (30% to 50%). A cooling at the beginning of June leads to capricious flowering. This causes runoff and further reduces yields while concentrating the aromas. The hot summer induces water stress in certain places which delays the maturity of the grapes. Because the berries are small and few number, the sugar level in the grapes is naturally high but the lack of water helped maintain good acidity.

### VINEYARD

The hillside vineyard, facing due east, divided into two parts of which the lower is clearly the better. There is plenty of clay in the soil but it's friable in nature, so easy to work.
