

MEURSAULT VIREUILS 2019

"Vireuils" derives from the verb "vire" which means to go round, like the path going round the vineyard.

VINTAGE

The season begins with a mild and dry winter, leading to an early start to the growing cycle. A significant episode of frost occurred on the Chardonnay on April 5 then on the Pinot Noir on April 14, causing a harvest loss (30% to 50%). A cooling at the beginning of June leads to capricious flowering. This causes runoff and further reduces yields while concentrating the aromas. The hot summer induces water stress in certain places which delays the maturity of the grapes. Because the berries are small and few number, the sugar level in the grapes is naturally high but the lack of water helped maintain good acidity.

VINEYARD

Terroir located on the top of the hill, near the village of Auxey Duresses. It is a brown limestone, more or less stony soil. Blending of vineyards from the parts of Dessus and Dessous (upper and lower parts).
