

## PULIGNY-MONTRACHET 2019

Its name derives from "Pul" which means "marais": marsh. Puligny stands on small pockets of water which prevent digging underground cellars.

### VINTAGE

The season begins with a mild and dry winter, leading to an early start to the growing cycle. A significant episode of frost occurred on the Chardonnay on April 5 then on the Pinot Noir on April 14, causing a harvest loss (30% to 50%). A cooling at the beginning of June leads to capricious flowering. This causes runoff and further reduces yields while concentrating the aromas. The hot summer induces water stress in certain places which delays the maturity of the grapes. Because the berries are small and few number, the sugar level in the grapes is naturally high but the lack of water helped maintain good acidity.

### VINEYARD

This A.O.C. is at the bottom of the hill, on a brown soil from the North of Meursault to the South of Chassagne-Montrachet. Stony calcareous clay. The style might be different but it combines elegance and richness. We are lucky to produce a wine that is representing the whole of the different terroirs from this village, thus more than 21.
