

MEURSAULT LES MEIX CHAUAUX 2019

"Meix" means a land around the house, the heart of the farm. "Chavaux" means a small valley before a river.

VINTAGE

The season begins with a mild and dry winter, leading to an early start to the growing cycle. A significant episode of frost occurred on the Chardonnay on April 5 then on the Pinot Noir on April 14, causing a harvest loss (30% to 50%). A cooling at the beginning of June leads to capricious flowering. This causes runoff and further reduces yields while concentrating the aromas. The hot summer induces water stress in certain places which delays the maturity of the grapes. Because the berries are small and few number, the sugar level in the grapes is naturally high but the lack of water helped maintain good acidity.

VINEYARD

The terroir is oriented North-East, in the north of the village, near Auxey-Duresses. Calcareous clay in the lower part, rocky and less deep in the higher part. The harvest is generally later in the parcel, protected by houses.
