

MEURSAULT 1^{ER} CRU CHARMES 2019

In Burgundy, this word refers to old common fields cultivated and let lie fallow or planted with hornbeams.

VINTAGE

The season begins with a mild and dry winter, leading to an early start to the growing cycle. A significant episode of frost occurred on the Chardonnay on April 5 then on the Pinot Noir on April 14, causing a harvest loss (30% to 50%). A cooling at the beginning of June leads to capricious flowering. This causes runoff and further reduces yields while concentrating the aromas. The hot summer induces water stress in certain places which delays the maturity of the grapes. Because the berries are small and few number, the sugar level in the grapes is naturally high but the lack of water helped maintain good acidity.

VINEYARD

The largest of all the 1er Crus classified terroirs of Meursault but also the archetype of the style of Meursault (rich, fat and powerful). Each level of the terroir gives elegance (above: Dessus), power (Mid-slope: Milieu) and richness (below: Dessous). The soil is rich in clay and more sedimentary.
