PULIGNY-MONTRACHET - FRANCE

PULIGNY-MONTRACHET 1ER CRU LES FOLATIÈRES 2019

The name of the terroir derives from "follots" which was located in humid places where there were often fog.

VINTAGE

The season begins with a mild and dry winter, leading to an early start to the growing cycle. A significant episode of frost occurred on the Chardonnay on April 5 then on the Pinot Noir on April 14, causing a harvest loss (30% to 50%). A cooling at the beginning of June leads to capricious flowering. This causes runoff and further reduces yields while concentrating the aromas. The hot summer induces water stress in certain places which delays the maturity of the grapes. Because the berries are small and few number, the sugar level in the grapes is naturally high but the lack of water helped maintain good acidity.

VINEYARD

The largest terroir of the village, facing to East and with a maximum sunshine. So, it has an early maturity. The Chardonnay can express its power and its elegance because of the important presence of limestone scree and the shallow subsoil. We have there three different origins of vines whose we purchase the grape.
