

PULIGNY-MONTRACHET 1ER CRU TRUFFIÈRES 2017

In the past, the ground was planted with truffle trees.

VINTAGE

After a cold and dry start to the year, temperatures rose quickly at the end of March, triggering a rapid resumption of the growing cycle. A few morning frosts impacted part of the vineyard at the end of April but without major damage. The flowering period takes place in a few days at the beginning of June in superb weather. The summer is hot and sunny but delivers some welcome storm rain to help the plant enter the veraison stage. The harvest takes place at the beginning of September with ideal weather and impeccable health quality of the grapes.

VINEYARD

Area favorable to the grey truffles from Burgundy. The soil is shallow with limestone, but also very poor. Wine of great distinction, very mineral with flinty notes. Only 600 to 700 bottles.

Purchase of grapes, harvest by us.
