PULIGNY-MONTRACHET - FRANCE

VOLNAY 1ER CRU MITANS 2017

In the old French language, "Mitans" means the middle, therefore a vineyard located in the middle of the slope.

VINTAGE

After a cold and dry start to the year, temperatures rose quickly at the end of March, triggering a rapid resumption of the growing cycle. A few morning frosts impacted part of the vineyard at the end of April but without major damage. The flowering period takes place in a few days at the beginning of June in superb weather. The summer is hot and sunny but delivers some welcome storm rain to help the plant enter the veraison stage. The harvest takes place at the beginning of September with ideal weather and impeccable health quality of the grapes.

VINEYARD

It is a small terroir with clayey limestone soil, drained because of gravel in depth. Famous as one of the best climats from the village, "Mitans produces fleshy and racy wines, worth keeping. Our supplying comes from two plots of which one of them is more than hundred years old.

Wine-Growing method : Sustainable

Harvest: 100 % manual

Soil : Calcareous clay

Production area : 3,98 ha

Altitude : 250-300 m

Average age of vines : 80
