

## MEURSAULT 2022

These excellent lands for vines were developed by the monks of Cîteaux since 1098.

### VINTAGE

The 2022 vintage brought serenity back to the vineyard with a healthy harvest and correct volumes. With rainfall accumulations far from excessive, the year 2022 was marked by average temperatures higher than seasonal norms and rainfall deficits from the start of the vine's vegetative cycle. At the beginning of April, episodes of frost will recall the terrible nights of April 6 and 7 of 2021, but fortunately with an impact beyond measure. The year 2022 is the year of all records for sunshine with the equivalent of an additional month of July.

### VINEYARD

It is the largest village of la Côte de Beaune which produces mainly white wines. According to the location of plots, the soil is rich and deep (at the bottom of the hillside) or limestone and marly in the "mountain". For our cuvee, we are blending 15 to 20 different but complementary plots in order to obtain rich and elegant wines.
