VOLNAY 2022

VINTAGE

The 2022 vintage brought serenity back to the vineyard with a heathy harvest and correct volumes. With rainfall accumulations far from excessive, the year 2022 was marked by average temperatures higher than seasonal norms and rainfall deficits from the start of the vine's vegetative cycle. At the beginning of April, episodes of frost will recall the terrible nights of April 6 and 7 of 2021, but fortunately with an impact beyond measure. The year 2022 is the year of all records for sunshine with the equivalent of an additional month of July.

VINEYARD

The grapes are purchased in different and complementary places called (Echards, Grands Champs, Poisots, Famines), blended directly in the tanks. The soil of Volnay is lighter and more stony than the soil of its neighbor Pommard. Volnay produces elegant and fruity wines.

Wine-Growing method : Sustainable

Harvest: 100% manual

Soil : Calcareous clay

Production area : 98 ha

Altitude : 230-250 m

Average age of vines : 46

VINIFICATION
