

MEURSAULT VIREUILS 2023

It designates plots which turn and follow the curve of the hillside, "turning" all around the vineyard.

VINTAGE

A demanding vintage. 2023 is now seen as the hottest year with the temperatures above seasonal averages. This vintage is also characterized by significant water deficit during the growing season and strong disease pressure. We also noticed strong heterogeneities in maturity with dynamics that are difficult to anticipate. The harvest was generous, allowing us to carry out a thorough sorting, especially on the Pinot Noir.

VINEYARD

Terroir located on the top of the hill, near the village of Auxey Duresses. It is a brown limestone, more or less stony soil. Blending of vineyards from the parts of Dessus and Dessous (upper and lower parts).
