

## PULIGNY-MONTRACHET 1ER CRU TRUFFIÈRES 2022

It is a climate where truffles can still be found at the foot of the oak trees.

### VINTAGE

The 2022 vintage brought serenity back to the vineyard with a healthy harvest and correct volumes. With rainfall accumulations far from excessive, the year 2022 was marked by average temperatures higher than seasonal norms and rainfall deficits from the start of the vine's vegetative cycle. At the beginning of April, episodes of frost will recall the terrible nights of April 6 and 7 of 2021, but fortunately with an impact beyond measure. The year 2022 is the year of all records for sunshine with the equivalent of an additional month of July.

### VINEYARD

Area favorable to the grey truffles from Burgundy. The soil is shallow with limestone, but also very poor. Wine of great distinction, very mineral with flinty notes. Only 600 to 700 bottles.
