

MEURSAULT NARVAUX 2019

This word derives from Latin language "vallis" which means valley: in French: "un val, des vaux"

VINTAGE

The season begins with a mild and dry winter, leading to an early start to the growing cycle. A significant episode of frost occurred on the Chardonnay on April 5 then on the Pinot Noir on April 14, causing a harvest loss (30% to 50%). A cooling at the beginning of June leads to capricious flowering. This causes runoff and further reduces yields while concentrating the aromas. The hot summer induces water stress in certain places which delays the maturity of the grapes. Because the berries are small and few number, the sugar level in the grapes is naturally high but the lack of water helped maintain good acidity.

VINEYARD

Blending of different vineyards in the terroir of Narvaux (Dessous and Gorges), located above the 1er Crus Genevrières and Poruzots. Facing East and on a steep slope, the vineyard grows on a subsoil composed of hard rocks, type Comblanchien. The terroir produces structured and rich wines.
